Grade Array

When you will start checking an exam for the first time you will have two checking options:

1. Check with Grade Array

2. Check with out Grade Array

- Grade Array is the exam questions structure and the grade per question and it is the **recommended way to check the exam**.
- Structure settings is done by pressing “set Array” in the exam checking screen or under “Grade Array” tab in home screen.

Exam Details | Grade Array | Attachments | Staff Comments | Comments Bank
Grade structure

Grade Array setting screen

1. Add a question - used to add one or more questions to the structure.
2. Add a few questions together - used to add a few questions to the structure at the same time.
3. Give grade for a question
4. Question box - you need to choose the question perform an action on the question (deleting a question, add sections)
5. Question sections: add sections and sub-sections to a question:
   - A choose the question
   - B number of the question and grade boxes will be used to define number of sections and grade per section
   - C to add more sections you will press the “add section” button
6. Grade box - use to change grade manually
7. Selection Groups - in the screen you can define that a group of questions will be choice question.
8. Import grade Array - import a structure from other courses
9. Save Array
   - at the end of the process you need to press the save button to save the structure

You can check an exam without the structure. The structure allows easy and organized work according to a defined pattern. This is the recommended way to grade an exam.
Grade Array

Define Selection Groups:

1. Press “Selection Groups” in the Grade Array screen and choose “create Selection Group”.

2. Choose the type of the choice – questions, sections or sub-sections.

When you create a few groups of Selection Groups you need to define the lower levels first.

3. Choose the questions you want to add by pressing.

4. After choosing the questions you need to define the number of questions you need to answer from the group of questions, and press confirmation button.

You can add a few groups of Selection Groups.

5. After you define the groups of Selection Groups you can see them in the Grade Array and at the grade general summary.

Total - 100 points
Selection - 20 out of 40
Total exam points - 80

6. You need to press “save” so the Selection Groups group will be saved in the grade Array.
Entering grades:

Ways to enter grades:

A: the recommended way - enter “final grade” by pressing the grade button:

1. Press the “grade” button (G) at the tolls menu

2. Press on the notebook where you want the grade to appear

3. “Entering grade” window will open - enter the grade per question and press OK

<table>
<thead>
<tr>
<th>Question number</th>
<th>Max grade</th>
<th>Comment box</th>
</tr>
</thead>
<tbody>
<tr>
<td>Question number- will always be the first question without grade, you can change the number manually.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Max grade - limited to what is defined at the grade structure.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Comment box - you can add a comment next to the final grade.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

4. The grade you entered and confirmed will appear at the notebook, and will be updated in the grade Array.

   to change the grade, press double click on the grade annotation that is on the notebook.

B: enter grade directly to the grade structure - enter the grade in in the grade box next to the number of the question.

pay attention- if you choose to give grade directly to the structure, you wont be able to use the grade button.
Entering grades:

C: Enter positive/negative grade - Gradeing by subtracting from the max grade or adding to the minimum grade that was defined at the structure.

1. Press the plus “+” or minus “-” button- and then press the location you want the annotation to appear on the notebook.

   You can define the negative/positive grade in advance by choosing from the menu numbers. (limited to 10 points per negative/positive grade)

2. Entering “negative” or “positive” grade window will open respectively

   Positive —

   Grade: 4
   (Left to add 20 out of 20)
   Short comment referring the question:

   Negative —

   Grade: 5
   (Left to omit 20 out of 20)
   Short comment referring the question:

3. You can give a few negative/positive grades to the same question, the grade will calculate and will update automatically in the Array and on the notebook.

   Exam Questions

   -5 (1)

   1 ▼ 20 / 15

   +2 (2)

   2 ▼ 20 / 2

Remarks about positive/negative grade:

- Positive and negative grades can be used together.
- The option is available only when you define grade Array.
- You don’t have to give a final grade after adding positive/negative grade (by pressing “G”), but we recommend that you’ll add it, so the student will be able to see all the grade summing up
Explanatory tools (annotations)

In the upper panel there are explanatory tools that you can use to highlight, add signs, write comments with:

- **Choosing a tool**: press on the tool you want, the chosen tool will be active once.
- **Reuse**: double click will allow reuse of the tool until you press it again.
- You can reduce, increase and drag the shape across the page.

![Active tool]

- **Deleting**: mark the object and press the trash button, or press delete in the keyboard. You can delete a few objects by marking all of the area they are in.

Adding comments on the notebook

- In order to add a comment on the notebook press the comment button.
- Press on the notebook (where you want to add the comment), “add a comment” screen will open.
- The screen contains text editor, you can choose font, size, colors and more.
  1. The screen has equation tools.
  2. You can save comments in the “comment bank” for reuse.
**Bank comments**

- The bank comments is a tool that saves the comments that you use on the exams.
- The save comments will appear in check exam screen, on the right side under “comments” menu.
- To use the saved comments, choose the relevant comment and place it on the notebook by clicking where you want the comment to appear.
- To edit a saved comment, press **double click** on the comment and editing screen will open.
- Search and filter comments display.
- Positive/negative grade comment will have extra indication – in which question they were used and the grade that been given.
- You can get to the saved comments by “bank comments” tab in the home screen.

<table>
<thead>

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

1. Import comments from other exams.
2. Adding a new comment- added comments in the bank comments will appear in the comment list in checking exam screen.
3. Question and grade field- comments that were added from positive/negative grade will have the number of question and the grade that was given.
4. Update a comment- editing the comment (comments that comes with grade, you can decide if the update will be comprehensive or specific).
Finishing exams checking per course

- After you will finish checking all the exams in the course, more buttons will appear in the home screen:

  1. "Grade and factor update" - allows to update grades, add factors and cancel questions.

  2. "End checking" - finish the checking process and lock the exam. The checked exams are sent to the academic department.

  3. "Download grades file" - allows to download grades as an excel file, after saving the file you can send it to the exams department.
End checking process

• To end the checking process you have to press the “finish checking” confirmation button.

• After pressing the button, “finish checking” screen will appear, in this screen you can see all the grades per question, you will have an advance notice if you missed a final grade in a question, or not giving a question grade at all.

Are you sure you want to finish the test?

1. Selection (1 from 2) 20 / 15
2. Selection (1 from 2) 20 / 17.5
3. 20 / missing score
4. 20 / 20
5. 20 / 17.5

* Click the question for more info

Total exam's points: 52.5
Students: 3 | InProgress: 3 | Finished: 2
Average: 31.5 | StdDev: 11.25 | Min: 10 | Max: 52.5 | From 2 Grades

Finish checking an exams - after confirming that you finish checking the exams, the system will automatically go to the next exam you need to check, if you finished all your exams it will go to home screen.

Changes after you finished checking - if you want to make changes on final grade after confirming that you finished checking, you will press “enable editing” on the top of the checking screen, you will make the changes and reconfirm the final grade.
Other tools in checking exam screen
